

The 2020 Dunster Covid Challenge Fun Round Results

Here are the results to this bit of fun!

Scoring was decided on the roll of a dice, well three actually. The first roll decided by how many each colour would shift, i.e throwing a 1 meant 1's became 3's, 3's became 5's and so on. The second two throws decided which of the arrow values would be a negative score and this exercise was carried out for each end. So those of you unlucky enough to shoot a 1 in end 4 would have scored -18 for this arrow and the lowest scoring end of the whole event was -72!! There were also a few 6 gold ends that ended up scoring 6 rather than 54. Thanks to you all for taking part, I hope you enjoyed it and will find it amusing (even if just a little bit) how many you ended up scoring. All a bit "QI" really!
